

**Tung Wah Group of Hospitals
Lions Club of South Kowloon Nursery School
Chinese Culture School-based Learning Activities**

**National Security School Activities of
National Security Education Day 2022**

Activity Date / Time

8th July, 2022 (Friday)

Object

K2 to K3 students

Aims

- Learning about traditional Chinese crafts and methods for protecting ecological safety
- Fostering children's sense of national identity
- Increasing children's awareness of national security information

Overview

Our school is honored to be invited to participate in the National Security School Activities of National Security Education Day 2022. The activities were formed by different workshop including traditional Chinese painting, Chinese knotting and beewax food wrap. Additionally, the workshops disseminate to children messages about safeguarding national security and building a safer and better home together. These workshops aimed to introduce children to traditional Chinese crafts and encourage them to express themselves through art, promoting the inheritance of Chinese culture.

Photos

"Wonders of the Stars" the children picture book created to promote the National Security Education Day 2022 was distributed at the workshop.

Through the beewax food wrap Workshop, children will have the experience of making beewax food wraps, encouraging them to reduce the use of plastic wrap, promote a plastic-free lifestyle, and protect ecological safety together.

Children learn about traditional Chinese crafts through workshops on Chinese painting and Chinese knotting, creating unique artistic expressions to pass on Chinese culture.
